

The Processor People

PLATEPRO SERIES

460TT Table Top Plate Processor

The PlatePro 460 is a universal Table Top plate processor incorporating diptank design for developing both positive and negative plates. It combines high quality construction and optimum performance, in a cost effective package. Its design provides for easy installation, simple servicing and robust reliability normally found in more expensive equipment

The PlatePro 460 TT has been designed by assessing market research of what you, the user, needs in a table top plate processor. All the items have been included at an affordable price.

Plates are developed, rinsed *and* gummed.

Developer is temperature controlled and filtered to assure excellent quality plates, easily.

Rinsing with fresh water is standard.

Gumming is an extra benefit on a processor such as this. Which all in all gives you a completely automatic processor at a very affordable price.

PlatePro 460 TT With Optional Closed Stand

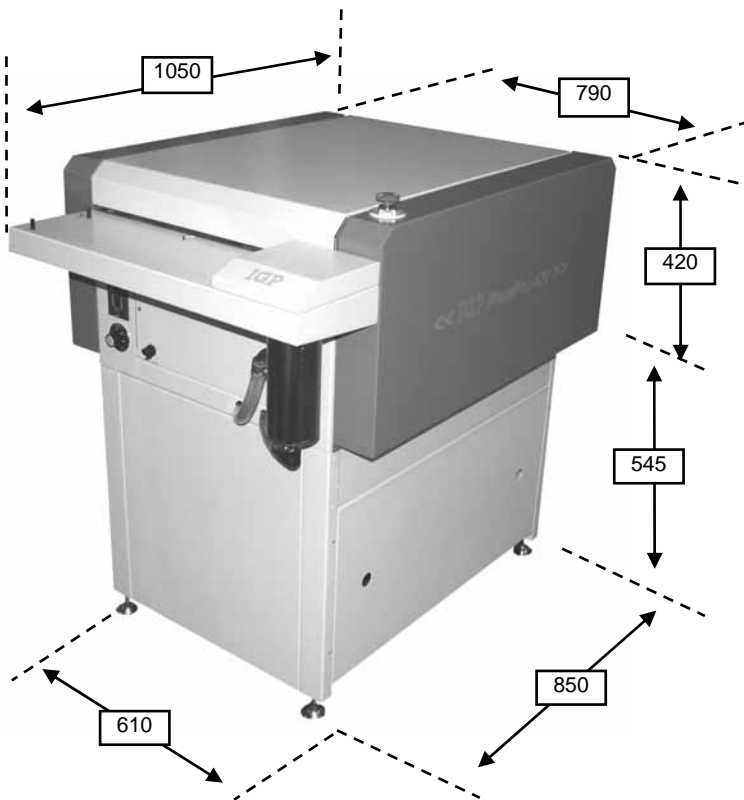

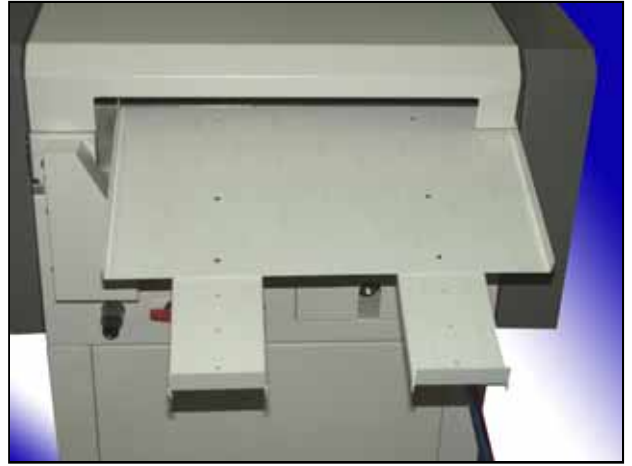

Success in partnership with THE Processor People

Adjustable Delivery Tray

The delivery tray on the PlatePro 460 TT is adjustable for length. This enables a variety of plates to be delivered safely without damage.

Water inlet, developer drain and water drain are all sited at the rear of the processor.

Mains input lead is sited at the front of the machine.

General Specifications

Suitable material	Conv. Aluminium Plate
Positive or Negative	Either, subject to chemistry
Maximum plate length	Unlimited
Minimum plate length	320 mm fed square
Processing Speed	10 to 45 secs.
Maximum Plate Width	460 mm
Adjustable Dev. Temp.	25 to 40 degrees C
Automatic Start/Stop	Standard
Automatic Dev. Repl.	Standard
Dev. Bath Capacity	10.5 Litres plus Filter
Filter Capacity	2 Litres
Gum Capacity	Any reasonable container
Water Connection	3/4" washing machine hose
Drain Connection	1 1/2 " Standpipe
Voltage	220/240V 50 Hz 1 Phase
Amperage	10 Amps

IGP (UK) Limited also supply a full range of larger conventional plate processors. A full range of CTP plate processors and processors for visible light applications.

A variety of plate stackers are also available in various widths, both in short footprint configuration and normal configuration. Ask for details on these items or visit our website at www.igp-ukltd.co.uk for full pictures and specifications

Note: The designs and specification are liable to change without notice due to product enhancements. All measurements are approximate.
